

The mission of Keep South Fulton Beautiful is to serve as the trusted source for advocacy, leadership, education, and engagement on environmental issues in the South Fulton Community.

The vision of Keep South Fulton Beautiful is an enhanced quality of life through conservation of natural resources, recreational opportunities, health, public safety, and economic development for the South Fulton community.

Keep South Fulton Beautiful would like to inform the new city of the attached opportunity sent to KSFB from Mary Talukder, EPD Land Protection Branch/Solid Waste/Waste Reduction Unit; you can contact Ms. Taluker at 404-675-6013.

This reimbursement Program has been available since October of 2016; however, some funds are still available on a first come first serve basis. KSFB thought you would like to apply since we have the challenges of illegal dumping in each district in South Fulton.

Please find below the attachments to apply for the scrap tire reimbursement program.

Best regards,

Judy Noles, Director
Keep South Fulton Beautiful
